

About the product

The Door Lock Air Inductive is a wireless door lock based on Loxone Air technology. It enables remote control and status feedback of doors via the Loxone system, ideal for new builds and retrofit projects, without the need for additional wiring. Thanks to inductive power supply, the lock is maintenance-free. No battery replacement is required.

Features

- Electrically disengageable outside handle
- Seamless integration – into access control, alarm system & building automation.
- Panic function according to EN 179
- Self-locking mechanism for enhanced security
- Door status feedback integrated in the system
- Mechanical emergency release
- Retrofit-friendly – no additional wiring required in the door leaf.
- Electromechanical lock certified according to EN 14846
- Suitable for use in fire-rated doors according to EN 1634-1

Technical Specifications

General	• Automatically locking panic lock • Latchbolt • Auxiliary latch
Locking Mechanism	• for profile cylinder (PZ)

Power Supply

Door Lock	Inductive power transfer via strike plate
Inductive power transmitter (integrated in the strike plate)	RZ12-24 V DC

Dimensions

Backset Options	• 35 mm
Centres (distance between spindle and cylinder)	• PZ 92 mm
Latch Bolt with Silent Insert	• 20 mm projection
Spindle Square	• 9 mm

Interfaces

Loxone Air	868 MHz (SRD Band Europe), 4 channels, max. 15.1mW e.r.p. 915 MHz (ISM Band Region 2), 10 channels, max. 13.2 mW internal antenna
------------	--

Ambient Conditions

Temperature	-20 ... 50 °C / 14 ... 122 °F
Humidity	max. 80 % r.h. (non-condensing)
Ingress Protection	IP20

Safety Instructions

This device is free of maintenance and must only be cleaned with a dry cloth.
